

PLACEMENT HIGHLIGHTS: ACADEMIC SESSION 2023–24

An Impressive Debut by the First Graduating Batch:

The Department of Mathematics & Scientific Computing proudly celebrates the remarkable placement performance of its first graduating batch of the B.Tech. in Mathematics and Computing programme in the academic session 2023–24.

Placement Index: 81.01%

Highest Package Offered: ₹27 Lakh per annum

Average Package Offered: ₹12.22 Lakh per annum

These impressive statistics underscore the rising demand for graduates of the B.Tech. in Mathematics and Computing programme, who possess a robust foundation in mathematical theory, analytical thinking, and computational skills. Our students have secured positions in some of the most prestigious multinational corporations, financial institutions, technology firms, and research organizations, reflecting the department's strong industry connect and academic excellence.

This remarkable placement performance is a direct result of the department's rigorous academic training, industry-aligned curriculum, and dedicated faculty mentorship, all of which work in unison to shape highly competent, industry-ready professionals.
