

{OFFICE OF CONSTRUCTION CELL}

NOTICE INVITING QUOTATION

Sealed quotations are hereby invited by the undersigned on behalf of the Director, NIT Hamirpur from the various contractor/firms for the work of **“Repair and maintenance of 320 KVA DG Set (Jeewan Diesels & Electrical Ltd. make Mahindra & Mahindra Engine)”** in NIT Hamirpur as per detail given below. The Quotation must reached in the office of the undersigned on or before **29/06/2026 up to 3:00 P.M.**, which shall be opened on the same day at **03:30 P.M** in the presence of intending quotationers or their authorized representative who may be present themselves.

Estimate Cost:- Rs.88,800/-

Time Period for 45 Days

completion of work:-

Sr. No.	Description of Item	Qty.	Unit	Rate (In Rs.)	Amount (In Rs.)
1	The comprehensive servicing of the 320 KVA Mahindra & Mahindra DG set includes complete preventive maintenance as per OEM guidelines, covering inspection of the engine, alternator, control panel, wiring, cooling system, lubrication system, fuel system, and exhaust system. All electrical and mechanical connections are checked and tightened and all consumables such as filters and oil are inspected or replaced as required. The DG set is thoroughly cleaned, lubricated, and test-run under load conditions to ensure optimal performance and reliability, and a detailed service report is submitted upon completion.	1	Job		
2	Supply and replacement of OEM-approved filter set, comprising the engine oil filter, fuel filter and bypass/secondary filter. All filters shall strictly conform to Mahindra & Mahindra specifications to ensure effective filtration and protection of engine components. The work includes removal of old filters, proper disposal as per environmental guidelines, cleaning of mounting surfaces, and installation of new filters with correct seating, sealing, and torque tightening to ensure leak-free operation complete in all . Make: Mahindra & Mahindra genuine part/ Fleet guard / Cummins Filtration/ Donaldson.	1	Job		
3	Supply and installation of OEM-approved dry-type air cleaner element suitable for the 320 kVA DG set. The work includes removal of the existing air filter, cleaning of the air filter housing, and fitting of the new element as per Mahindra & Mahindra OEM standards. Make: Mahindra & Mahindra genuine part/ Fleet guard / Cummins Filtration/ Donaldson.	1	Job		
4	Supply and filling of high-grade radiator coolant with corrosion inhibitors conforming to ASTM standards for use in the DG cooling system. The work includes draining the old coolant, flushing the system as required, cleaning the radiator passages, and filling/topping-up the new coolant to the recommended level to ensure proper circulation and optimal cooling performance. Make: Mahindra & Mahindra genuine part /Gulf / Gulf Super Duty Coolant/ Castrol Radicool.	60	Ltr.		

5	Supply and filling of 30 liters of premium diesel engine oil meeting API CI-4 and OEM-recommended SAE viscosity grade specifications. The engine oil ensures optimal lubrication, superior wear protection, and high thermal stability for efficient DG engine performance. The work includes draining the used oil, cleaning the filler area, filling the new oil to the prescribed level, and verifying the oil level and condition as per OEM instructions. Make: Mahindra Maximile Premium / Mahindra Genuine Oil/Shell Rimula R4 / R4X (API CI-4)/ Mobil Delvac MX / Delvac 1300 Super (API CI-4).	30	Ltr.		
6	Dismantling and complete overhauling of the self-starter, including servicing of the armature, replacement of worn-out bushes, replacement of carbon brushes, servicing of the solenoid assembly, and lubrication of all moving components. The self-starter is then reassembled, aligned, and tested to ensure smooth operation and reliable cranking of the DG engine complete in all respect.	1	Job		
7	Complete servicing and calibration of the fuel injection pump and injectors, including dismantling, cleaning, and inspection of all components. The injectors are pressure-tested for spray pattern, opening pressure, and leakage, while the fuel injection pump is calibrated to OEM-specified fuel delivery parameters Complete in all respect.	1	Job		
8	Supply and installation of an OEM-approved V-belt and fan belt set suitable for the 320 kVA DG engine. The work includes removal of the worn-out belts, cleaning of pulleys, installation of the new belt set, and adjustment of belt tension and alignment as per OEM standards to ensure smooth operation of the alternator, water pump, and cooling fan, thereby preventing slippage, overheating, and premature wear. Make: Mahindra & Mahindra genuine part/Gates/ Fenner.	1	Job		
9	Dismantling, cleaning, and complete servicing of the radiator, including leak detection, soldering/repair of leakage points, fin straightening/alignment, and thorough pressure washing of core and tanks to restore proper airflow and coolant circulation. After servicing, the radiator is reinstalled with correct mounting and hose connections and the coolant is topped up to the required level to ensure effective heat exchange and stable temperature control during DG operation complete in all respect.	1	Job		
10	Other miscellaneous works including dismantling, servicing, refitting, testing, and commissioning of all components, encompassing the use of tools, consumables, minor adjustments, and all necessary onsite handling complete in all respect.	1	Job
