e-Workshop

On

“Quality Research and Scholarly Publications in Social Sciences”

18th -22nd January 2021

Registration:

Registration is compulsory for all the delegates. The registration fee is non-refundable.

- Students and Scholars – 200 Rs + 2% transaction charges
- Academia and Industry – 500 Rs + 2% transaction charges

Payment Mode: To pay through **SBI Collect** via select the following options;

(State of institution- *Himachal Pradesh*, Type of institution - *Educational Institutions*, Educational Institutions name – NIT Hamirpur, Payment Category - “*Workshop/STC/FDP/Conference*”)

After fee payment, kindly register online using the following link;

https://forms.gle/ZgJm3vW_xh28LAXbE9

Number of Participants

Number of participants is limited for this e-Workshop. Applications will be accepted on first cum-first serve basis.

Last date of Registration: 12th January, 2021.

Resource persons

Faculty from IIMs, IITs, NITs, IIITs and State Universities will deliver the lectures.

Certification

E-certificates will be provided to those participants who have attended at least 75% of the program.

Who can participate?

Faculty Members, Research Scholars, Post-graduate & Graduate students, Industry professionals

About the institution

The National Institute of Technology, Hamirpur is an Institute of National Importance. The Institute offers B.Tech, M.Tech and PhD programmes in various disciplines of Engineering, Humanities and Sciences.

The Institute is functioning in a vast area of above 250 acres at Anu in Hamirpur district of Himachal Pradesh and is 4 Kms from main bus stand of Hamirpur on Mandi-Jalandhar National Highway (NH-70). The city of Hamirpur is well connected with the rest of the country by road.

Nearest Railway Station: UNA (about 85 Km) Nearest Airport: GAGGAL (Kangra) (about 85 Km)

About the department

The Department of Management Studies offers full time PG degree programme, viz. Master of Business Administration (MBA). Students get the advantage of dual specialization, out of - Human Resource Management, Marketing Management, Operations Management and Financial Management. The Department also offers Ph.D. programmes on stipendiary and non-stipendiary basis for full time and off campus candidates.

The diversity of the curricula offered through the Department provides the students with the foundation skills that can be used not only in the classroom, but to master challenges in globalized dynamic and competitive markets. This is done through a plethora of channels including lectures, talks, case studies, research projects, group discussion, workshops, seminars, etc. Faculty members possess a blend of academic and professional experience, which facilitates disseminating of knowledge to the students through both classroom sessions and independent student activities.

The faculty is highly qualified with international exposure and motivated to inculcate quest for perfection among the students. Short term Training/Management Development Programmes for industry and faculty are regularly organized by Department of Management Studies with MHRD and AICTE collaboration. The

Department has well experienced and dedicated faculty members with different specializations. We have well equipped laboratories with state-of-the-art facilities like servers/workstations, desktops and mobile devices.

About the e-Workshop

The process of quality research is useful if it sees the dawn of publication. Hence, getting a paper published in a reputable peer-reviewed journal is an important milestone for researchers. Publication must be seen as an important, if not the most important, part of quality research process. However, writing research papers for academic journals is not easy and is also very competitive.

This workshop is an attempt to address the issues related to writing and communicating research papers. Conducting quality research and documenting the same into a form which may be accepted for publication, are entirely two separate issues. Publication of a research work post its completion is an essential criterion for the recognition of both the researcher and the research work. The workshop aims to train the participants about the systematic process involved in converting a particular research work into a publishable manuscript, which can be communicated to a reputed journal for publication.

The workshop aims to enable participating researchers and scholars to plan and prepare research publications suitable for world recognized journals (SSCI/ABDC/Scopus/High Impact Factor). Hands-on experience will be provided on important components of a research paper. Many important tips would be shared to deliver the content smartly in shorter as well as longer run in career as a researcher and academician. Content of the workshop has been designed to avoid some pit-falls in publication journey and become ready as a skilful researcher and author to match expectations of quality publications. The workshop would be useful for the professional development of faculties, trainers, researchers, and professionals.

Objectives of e-Workshop

- To gain an appreciation of what quality means in the context of academic writing.
- To familiarize the participants with the general structure and elements of a research article.
- To deal with the issues and challenges of preparing and writing a research manuscript suitable for publication.
- To understand the review process and to accommodate reviewers perspective leading to successful publication.

Topics to be covered

Introduction to quality research, Writing impactful bibliometric review papers, Instrument development, Methodological issues, Theoretical contribution, Factors decides the quality of a research paper and ensure the acceptance of scholarly publications, Art of research gap identification

Writing scholarly articles, How to select a journal for scholarly publications and to write a review for journal, Making powerful research presentations and defending research, Writing effective case studies and teaching notes, Teaching with cases: case position in the course, case class delivery, How to engage through Simulations,

Communicating research papers, R&R (revise and resubmit) issues, Plagiarism its Detection and Prevention, How to apply for research grants, How to publish your book/ book chapter with an academic publisher?

Pedagogy

Practical examples, group discussions, conceptual lectures, Case analysis and experience sharing are some of the techniques that would be employed in this workshop programme. The participants would be expected to actively participate and engage in online session discussions.
