Background

Emotional Intelligence also known as emotional quotient or EQ is the ability to understand, use and manage your own emotions in positive ways to relieve stress, communicate effectively, empathize with others, overcome challenges and defuse conflict. In past few years “Emotional Intelligence” has emerged as one of the key components of emotional adjustment, life success, interpersonal relationship and personal wellbeing. The five-day FDP is aimed to foster the importance of emotional intelligence in personal as well as in professional life. The program focuses on the concept and benefits of emotional intelligence to uplift personal and social competence, challenges and strategies to improve emotional intelligence. Case studies and Hands-on sessions have been also included in the course to give the clear idea about Emotional intelligence.
