Department of Architecture | National Institute of Technology Hamirpur |

3, 10, 17 & 24 Sept. 2022

National Institute of Technology Hamirpur is one of the thirty NITs of the country, established in 1986 as Regional Engineering College, as a joint and cooperative enterprise of the Govt. of India and Govt. of Himachal Pradesh. The goals of the institute as embodied in the logo are truly remarkable in their scope of vision.

The National Institute of Technology, Hamirpur is one of the leading Institute of India, imparting UG and PG courses in Architecture & Engineering streams. Architecture Department is the first government institute imparting Architectural Education in the state of Himachal Pradesh. The department is committed for the cause of Sustainable Development encompassing; the principles of designing and planning in the hill environs. Architecture Department is a Nodal Centre identified by the Ministry of Home for National Programme for Capacity Building of Architects in Earthquake Risk Management (NPCBAERM).

'Infant Toddler and Caregiver-friendly Neighbourhoods (ITCN) Training and Capacity Building Programme' was launched by the National Institute of Urban Affairs (NIUA) in partnership with Bernard van Leer Foundation (BvLF).

The programme is designed to help build capacities of city officials and young professionals for developing young children and family-friendly neighbourhoods within cities, said a press release issued by the Ministry of Housing and Urban Affairs (MoHUA).

In an ideal neighbourhood, infants and toddlers and their caregivers feel safe and encouraged with the freedom to run, explore, play and engage with their built and natural environment. The streets and parks in the neighbourhood are safe from cars, strays and predators. Neighbours and other familiar and trusted service providers, often found in Indian streets, engage and keep a look out for the child adding to a sense of security. Parents feel at ease that their children are safe outdoors.
