

Electrical Measurement and Instrumentation Lab

The key objective of this Lab is to make students familiar with the various instruments that are used in measurement of electrical and non-electrical quantities in different engineering applications and R&D activities. The lab is fully equipped with latest setups as per need of UG students.

OIC Name: Dr. Anil Kumar Yadav

Technician: Sh. Joginder Singh(Sr. Tech. Assistant SG-II)

Equipment Details

Hardware	Qty
AC and DC Bridges	38
Digital Multi-meter	02
Digital Storage Oscilloscope	08
AC/DC Ammeter and Voltmeter	14
DC Regulated Power Supply	10
Function Generator	04
Cathode Ray Oscilloscope	07
Energy Meter	01
LCR-Q Meter	02
Auto Transformer (Variable)	01
DC Potentiometer	01
