Note: (1) All the students who have not given their preferences for Open Elective course can select from the given courses only. In this regard, they can contact to their registration incharge(s).

- (a) EC-380, Microcontroller and its applications
- (b) EE-380, Sensors and Transducers
- (c) MA-380, Numerical Method for Partial Differential Equations

(2) The students are advised to check the allotted subject (Open elective) was not earlier studied by him/her. In case, if it is studied, then inform to Dean Academic to change the allotted subject.
