

Signal Processing and Biomedical Instrumentation Lab

This Laboratory is a PG lab which primarily caters the needs of students of M.Tech. Program in Signal Processing and Control. In addition to this it provides facilities to UG and PhD students for carrying out simulation studies and undertakes their project & research work in this area. The main equipments housed in this Laboratory are given in table below.

<i>OIC Name:Dr. Amit Kaul</i>	
<i>Technician: Sh. Chet Ram Rana (Technician SG-II)</i>	
Equipment Details	
Hardware	Qty
High resolution progressive scan monochrome CCD camera	01
single finger reader scanner	01
Biopac physiological data acquisition (Biopac MP-100 and MP-35)	Each One
Computers	25
